indeed Profile — Portfolio/Website

Professional Summary

Full-Stack Developer with over 1 year of experience specializing in **MERN stack** and **PHP** technologies, with expertise in **Laravel** and **JavaScript**. Currently working as a Full-Stack Developer at PNY, Rawalpindi. Proven track record in delivering end-to-end solutions, optimizing performance, and building scalable, secure web applications. Passionate about clean code, user experience, and learning new technologies.

Technical Skills

- Languages: JavaScript (ES6+), PHP, HTML5, CSS3, SQL
- Frameworks: React.js, Node.js, Express.js, Laravel, Bootstrap, Material UI
- Databases: MongoDB, MySQL
- Tools & Technologies: Git, GitHub, Postman

Professional Experience

Full-Stack Developer, PNY, Rawalpindi

- Led the design and development of scalable web applications using the **MERN stack** and **Node.js**.
- Created RESTful APIs with **Express.js**, ensuring seamless integration between the front-end and back-end.
- Optimized web application performance, reducing page load times by 40% through code splitting and lazy loading.
- Implemented **JWT-based authentication** and **role-based access control (RBAC)** to secure user data and APIs.
- Collaborated with cross-functional teams to deliver features in an Agile environment, improving delivery speed by 30%.
- Built a custom **Facebook clone** in **PHP** using the **ajax**, including features such as authentication, real-time messaging, and user profiles.
- Integrated third-party APIs for payment gateways and social logins (e.g., Google, Facebook).
- Improved SEO and site speed for multiple clients, achieving up to a 50% increase in organic traffic.
- Developed user-friendly front-end interfaces using **JavaScript** and **Bootstrap**, focusing on responsive design.
